

A Farm Visit with Nursery kids

*"the **farm**teaches us what life is all about"*

Our nursery tiny tots were taken to the farm on 3rd Nov. As soon as we reached the farm each group of kids were allotted one parent representative who took us around for the various activities - gardening, tree house, animal petting, introduction to different plants and pony ride.

Post all these activities, kids had their tiffin and free play time.

It was indeed a great place to take kids out to interact with nature.
