

An Exhibition for Children with Autism

Planet Autism is an exhibition that showcases the art works of individuals with autism. This year the works of 46 artists from all over India were on display.

The exhibition was organised for 3 days, on 15, 16 and 17 of April 2018. A few artists of Sanskriti School too were represented. The Learning Centre organized a visit for fourteen students (some of whose artworks were showcased) where they appreciated the talent of all the artists. It was indeed a treat for students and teachers to see the immense talent of these young artists from all over India.
