

Cooking without fire

The students of class 1 enriched their culinary creativity by making coconut ladoos in "Cooking without fire" activity on 16th October. Children participated in the activity with great enthusiasm. Children were asked to come and make their own ladoos. They developed their gustatory skills through this activity. While making the ladoos, teachers discussed about healthy eating and nutrition. They were also told about the importance of washing hands before and after cooking. After the completion of the activity, children relished eating the yummy ladoos.
