

## Visit to a farm

Farms are a great place to visit any time of the year because they provide children with an experience that no literature can provide.

Keeping this in mind , children of class 1 were taken for a visit to the AUM FARM on the 25th of October. The children were all excited to visit the farm . They were toured around by several family members of the farm . They observed the farm animals in their local environment. They walked through the cow sheds and saw milking of the cow . They got to see the calves and lamb which is always a favourite part for our children. They also saw different kinds of plants and vegetables. The gardener showed them how each plant was planted in a different section . They fed the goats and sheep. They were then taken to the 'Enchanted garden' where different story corners were created . The pony ride was an icing on the cake as the children eagerly waited for their turn . Children had an amazing time . The day spent at the Aum Farm was a day of fun and learning . A day of play and full of memories
