

## Emergency Traffic advisory for parents

Dated 17/05/2019

This is regarding an important issue which affects the safety and security of our children. Yesterday, i.e. on 16<sup>th</sup> May 2019, a Fire brigade could not enter the Radhakrishnan Marg due to the congestion on the road. As we are all aware, numerous cars are parked haphazardly without paying heed to the convenience of others or to the smooth movement of traffic in the area. As we saw yesterday, the lane dedicated to the Buses had cars **parked** which is not permitted . This road has to be accessible at all times, more so in times of emergencies and crisis.

Hence we exhort the parents to ensure that they do not park on footpaths or block traffic movement when they come to drop or pick their wards. The drivers should also be instructed to do the same.
