

### For the attention of Senior School Parents

As you are aware, the students of grades XI and XII are allowed to carry mobile phones to school which they are supposed to deposit in the room of the Senior School In-charge early morning. However, this privilege has been granted to only those students who go for coaching classes for competitive examination after school and need the phones to stay in touch with their parents. The school had given this option keeping in mind the safety and security of students who may be on their own after school.

Unfortunately, we have noticed that increasingly the mobile phones are being used to listen to music, take photographs and surf the internet as soon as the school is over. Often it is a dangerous distraction for students while they are navigating the traffic after 1:45 p.m. in front of school and sets an incorrect example to juniors. Therefore, we have decided to allow only those students to carry phones who have a genuine reason and can bring a letter, signed by parents, testifying its requirement . Also, we request the parents to only send an inexpensive phone and not a high-end version. We hope the parents will support this decision of the school in order to instill the correct values and maintain discipline and decorum in school.
