

Heritage walk Hauz Khas village

The members of the photography club of Sanskriti School, along with a few more interested students from classes 9th and 10th, went for a Photowalk on the 4th of November, 2015 to Hauz Khas Village. We first went to the lake side, where we were greeted by squirrels (who were very still for our photography), birds and clear skies. The water birds were amazing to be photographed. After a while, we walked to the adjoining deer park, and we gaped at the deers and peacocks through our cameras. Finally we walked to the monument side of Hauz Khas Village. Clicking at these locations gave us photography-enthusiasts a brilliant opportunity and was an amazingly enriching experience.
