

Dear parents,

At Sanskriti children are our most important assets and we wish to empower them at an early age so that they can resolve conflicts, manage challenges and grow up to be confident, articulate adults. Keeping this in mind, we have invited Dr. Shelja Sen, (Child and adolescent psychologist and author who runs the clinic 'Children First' at Safdarjung Enclave), to speak about inclusion and building a safe zone for children.

This is an important session and we expect a large participation from parents.

You will agree that it is only when parents and teachers work in partnership on common goals, will we be able to empower our children.

Look forward to your presence. The details are as follows...

Date : March 21,2018

Venue : School Auditorium

Time : 11:00a.m to 1:00p.m

Warm regards,

Yours sincerely
