

# Visit of school children from Druk Padma Karpa School, Leh- Ladakh

As part of the first step in the twinning programme between Sanskriti School and Druk Padma Karpa School, 37 students of Grade 10 and 3 staff members from the Leh school visited us on 14th July 2015. It was a unique experience for students of both schools and led to an enriching interaction.

Each visitor was assigned a Class 10 student as a buddy and all students participated wholeheartedly in the day's events. In the morning our guests not only attended our school assembly but also regaled us with their beautifully rendered school song.

Later they attended a calligraphy workshop and played friendly basketball and football matches with their hosts. Later they exchanged their experiences with each other over hot samosas and ice cream.

Their visit ended with a tour of the school and when it was time for them to leave they exchanged phone numbers and addresses with their new friends and promised to keep in touch.
