

Way to a person's heart is through the stomach; a proverb proved today when our Young Chefs from the Senior Learning Centre reached out not only to the Maitreyi girls but also to the Management Committee and Principal of the College. The students have created their own little niche, with their enthusiastic demeanor and innocence.

A most awaited event not only for the children but also for the Maitreyi girls, who had a scrumptious feast on the freshly prepared pizzas and brownies.

Indeed, a significant learning experience for our children and a complete pleasure to observe them gradually graduate into their designated roles. It was again an

exciting experience for our young learners as they returned with a sense of achievement, acknowledgement and fulfillment to school.
