

## Maths day class 5

The junior school celebrated the Maths Day today on 4th May 2016. Class 3 made interesting greeting cards using geometrical shapes. Class 4 made the most amazing geometrical rangoli filling the central courtyard with laughter and colours. The class 5 had an interesting session with a cartoonist and later when they embarked on the project of making posters using geometrical patterns, some even giving a message, of saving the Earth and the environment.
