Phone Donation Drive

Dear Parent,

Sanskriti is participating in the Edutech Summit hosted by the LearnToday group. The theme of this year's summit is Design, Technology and Change, with the primary goal being for students to solve real-world problems with innovative thinking. Participating schools have to establish a relationship with another school such that both institutions can help each other.

Sanskriti is creating portable projectors to give to children in our partner school, Sarvodaya Vidyalaya, Kitchener Road. These, along with instructional videos that students from Sanskriti will make and share with our peers at Sarvodaya Vidyalaya, will supplement their curricular and co-curricular endeavours.

The projectors require touch screen phones on which these videos can be played. Phones should be in good working condition, and must be able to be charged.

The Edutech team is organising a phone donation drive on Saturday, 6th August, from 8am to 1pm. Parents are requested to deposit any old phones they may have with the students at the senior school gate. Phones are to be donated in an envelope with the name, address and contact number of the parent, as well the name, class and section of their ward. Phones that do not fit our requirements as well as extra phones will be returned to their owners.

We appreciate your support.

Abha Sahgal
Principal
