

Report on Visit to Nehru Planetarium, New Delhi

Date: 12.4.2018, Thursday

Event: World Cosmonautics Day

Timings: 9:00AM - 12:00 noon

Fifteen students of our school became a part of the World Cosmonautics Day celebration held at Nehru Planetarium on 12.4.18. It was organized in association with Russian Centre of Science and Culture and Space India Ltd.

The students were first shown a small movie called 'Astronaut' in the planetarium sky theatre and a small documentary on Yuri Gagarin. Delegates from Russian Space Center also presented a power point presentation depicted various achievements of India and Russia in the field of space research.

At the end there were a Hydro-rocket launching event. One of our students, Swasti of class VIII, got the opportunity to launch the hydro rocket. Our students interacted with the Russian experts and were enlightened by their knowledge. We all enjoyed the enriching experience.

A message to the astronauts:

Dear sir and mam's,
Any combination of 26 letters
cannot describe the hard
work and effort you've put
in to achieve this feat!

All the very best ♥

Hope you continue to achieve
laurels and make us all
proud!

Reach the stars and BEYOND ☆

Immense love,
Sanskriti School
