

The Srijan School, on 20th Nov 2018 organized a non-competitive event that brought together fun, knowledge, creativity, innovation and freshness. Our children from the Learning Centre participated to showcase their talents and capabilities. The event believed in boosting the confidence of students by recognizing their exceptional talents and achievements. It was an enriching learning experience for our students, where there was a display of solo and group dancing, fancy dress, singing, cooking without fire and painting.

It was an exciting and enjoyable day, lived by our special children, who gave incredible performances and participated with enthusiasm.
