

Transition Module

The transition module culminated with a 'Healthy Breakfast' activity where in the parents of Grade 6 were invited. The students prepared food items that have high nutritional value and welcomed parents to try it. They also showed their parents their files that contained their transition module work(grade5&6).The parents not only encouraged their kids but also the other students. They tried every snack and encouraged students to imbibe these good habits in their daily routine.

The transition module, indeed, helped our students settle comfortably in the new environs of the middle school. The students are now ready to take on the opportunities that the new session has to offer.
