

EXPRESSIONS 2016 held at Army Public School

On July 22, 2016 five students from grades 8, 9 and 10 participated in two competitions - MathZapp (preparing an ad campaign including poster, jingle and roleplay on a given topic) and Matheasure Hunt (reaching the target going through many rounds based on algebra, coordinate geometry, measurements, reasoning etc) organized by Army Public School during their Inter School Cultural Fest 'EXPRESSIONS 2016'.

Tejas (IX F) and Snigdha Garg (X D) displayed a unique combination of spontaneity and accuracy and brought laurels by winning the first prize in Matheasure Hunt competing with their counterparts from various schools.
