

Our superb chefs for the day were again the Senior Learning Centre Students, who put up a food stall at Maitreyi College on 23rd August 2019.

The children were an amazing bunch of crowd pullers, who reached out to the young college community with their budding set of social and interpersonal skills.

The initiative taken by the Learning Centre Departments showcased not only the commitment, enthusiasm and willingness of the children towards their job but also empowered them with being self-reliant and confident.
