

## Year end picnic - Middle School

End of the academic session 2017-18 is here. To bid adieu to this lovely session the middle school - year end picnic we're organised.

A trip to **Kotla Feroz Shah** was organised for **Grade 6**. It was a fun filled yet informative visit. The students were amazed with the fort's numerous ruins and at the same time enjoyed playing in its sprawling lawns. It was a great bonding time with the students and teachers playing games and singing together with great enthusiasm. The students and the teachers alike kept discussing stories of the long lost historical monument even during their way back to school.

**Grade 7** enjoyed the lovely lush green **Lodhi garden**. The students with bags full of food, ample energy and with lots of excitement reached the venue. They played, ate and ran enjoying every moment. The teachers supervising them kept a strict watch also enjoying the lovely area. A day well spent. All back to school on time.

Someone has rightly said, 'You bring your own weather to a picnic.!' Class VIII went to Nehru Park. Armed with Badminton rackets, footballs and food, students ran around in the sun and enjoyed being with each other and with their teachers. After returning they still had energy to go and play in the gymnasium.

These outings were a great way to break the monotonous routine of work as well as to bring a closure to yet another fulfilling and enriching year. Students returned back happy and rejuvenated with a gleam in their eyes to face their annual examinations with fresh energy. Students of grade 8 felt nostalgic as it would be their last year at the Middle School

and played games and spent time interacting with their teachers, singing songs and building everlasting memories.
