

## **Pre- Regional Mathematics Olympiad (RMO), September 4, 2016**

The Regional Mathematical Olympiad (RMO) is an important problem-solving contest in Mathematics for school children in India. Taking part in RMO is the first of the three steps necessary to compete in the International Mathematical Olympiad (IMO), considered to be the most challenging problem solving contest for school children across the world.

PRE-RMO is the preliminary stage for selection of students for RMO 2016. It will be held on September 4, 2016 at the center allocated by the organizers.

School students from classes IX - XI are eligible to appear for PRE-RMO. Top 300 students will be eligible to take the RMO on October 9, 2016. A participation certification will be awarded to all candidates taking the PRE-RMO.

PRE-RMO is a 2 hour written test containing 20 MCQs for 5 marks each. 3 marks will be deducted for each wrong answer.

Registration fee is Rs175/- for each student.

Students are advised to go through the previous years papers of RMO, available at <http://rmonorthzone.com/#> to get familiar with the level of the Olympiad.

Interested students are requested to contact their respective maths teachers and deposit the fee and other required details **latest by August 11, 2016**.
