STRUCTURAL STABILITY CERTIFICATE

This is to certify that I visited the Sanskriti School campus located at Plot no-34, 35 & 36, Chanakyapuri, New Delhi, with a view to conduct a health audit based on detailed visual inspection. The campus constructed in 1998 comprises of Basements, Ground and Three floors. The building was designed and constructed as an RCC framed structure. The general condition of the building is good except some columns in the basement and some beams at upper levels which need immediate repairs.

Since the building was constructed 22 years ago, it obviously cannot comply with the present code. A detailed study of the existing structure would be required to arrive at the extent of retrofitting to be done in the building in order to comply with the prevailing code. It must be noted, however that the building has withstood the test of time during which it has experienced many severe earthquakes especially in the recent years.

The building was designed in accordance with the then prevailing relevant codes of practice and national building code including IS: 1893, design of earthquake resistant structures.

Chanakyapuri, New Delhi - 110021

It is also to be noted that the building has withstood earthquakes of 6.3 Richter scale in the recent past with no damages in the structure.

We further certify that the building is safe for the purpose it has been designed for.

Yours truly

Naveen Jaitly
