*“In the hot summer sun we have lots of fun
We have water fights we swim in the pool
We go on vacation which is very cool
Summer is nice, summer is sweet
Such as a Popsicle tasty treat!!
We eat yummy mangoes, we sip cool drinks
Joy and excitement the summertime brings!”*

Dear Parents,

It's time for summer break for our little ones and there is a lot you as parents can do to make this fun time meaningful and interesting for your kids along with keeping them busy.

For your convenience we have selected and compiled some **Recycle crafts** which can be made with materials found around the house or items that are usually thrown away.

Newspapers, plastic bottles and ice-cream sticks can all turn into works of art with a little effort and imagination. Let us encourage our little ones to help protect the environment by re-using the waste to make unique pieces of art. You may assist and help them get things together!

In addition we also request you to go through the formation sheets and help your child practise writing his/her name.

Also please find attached a list of suggested books for you to read to/with your child.

Please note: We request you to send one recycle craft item after the Summer Vacations created by your child.
