

Subject: Free Arduino Workshop for Sanskriti School (Students of classes VI - VIII)

Dear Parents,

We hope you are doing well and staying safe. We are excited to introduce a **free workshop on Basics of Arduino** for your children.

Why should your child Register for this workshop?

Coding has become a fundamental skill for the technology-driven 21st century. It inculcates computational thinking skills in kids which, in simple words, is the method of solving problems using technology. Additionally, it also helps kids in their academics, especially mathematics and physics. Even though Arduino is based in technology and electronics, the lessons you learn in building these projects can apply to all areas of your child's life.

Some of the benefits of learning Arduino are -

- Your child can build awesome projects
- Arduino is great for programming
- Your child can learn electronics easily
- It's a great hobby to have

Workshop Details:

When: 29th July 2021, 5 pm to 6 pm

Material Required: As this is an online workshop, children will need a laptop with an internet connection to attend.

How to Register for the Workshop: Parents/Children just need to submit their details on the following link. We will send an invite on their email/WhatsApp/SMS.

Link to register: <https://zfrmz.com/x6qS9sB408R4aBbdjV3d>

****Participation certificates will be provided to all attendees on successfully completing the workshop.***

To keep the workshops interactive, we have only limited spots available. Hurry Up and register now!

Please feel free to get in touch with us if you have any questions or face any difficulties in registering for the workshop.

Regards,
Team Avishkaar
