

Circular and website

As you are aware the school publishes photographs of various events on its website. The school would like to take permission from guardians/ parents before we can publish photographs of your wards on a public platform.

In case you have any reservation regarding the issue mentioned above, kindly write to the class teacher, grade representative or the in-charge, apprising them about your objection to the publishing of your ward's photograph.

We look forward to your support so that we can streamline our work further in the school.
