

Healthy Food Festival

"Health is wealth."

Eating healthy and balanced food is very important in this modern world to stay fit and healthy. To make our little ones aware about the importance of healthy eating habits and to give them exposure of community eating a Healthy Food Festival was organised by grade I on 20th and 21st February. Three sections played the role of hosts and three sections were guests. Children made invitees for the guest sections to invite them for the occasion. Yummy bhelpuri, Cheese sandwich, Chocolate Biscuit were served by the host class to the children when they visited their class. Children got their own plates and spoon from home. This activity helped to develop table manners in children and they thoroughly enjoyed the feast.
