

Outing to Nehru Park

“Nature’s beauty is a gift that cultivates appreciation and gratitude” Children from Grade 1 were taken for an outing to Nehru park on 25th April, 2019. Picnics are a great way of bonding with your classmates - a fun time away from your daily routine. The children got into the buses and reached the park full of enthusiasm. They had their yummy picnic lunch in the park and realised the importance of keeping the surroundings clean as they were asked to trash the empty juice cartons, foil and wrapping paper. After this they played around on the lovely green carpet of grass and admired the beauty of nature. After a morning full of fun and excitement the children boarded the buses back to school with a big smile on their faces.
