INTERACTION WITH DR. UMESH SRIVASTVA, SCIENTIST INDIAN OIL CORPORATION, R & D CENTRE: ABOUT “SURYA NUTAN.”

The students of the Learning Centre, Sanskriti School had a great opportunity to meet Dr. Umish Srivastva of Indian Oil Corporation. Dr. Umesh has 31 years of experience in Research and Development and is presently heading the alternate energy department comprising activities in Solar Energy, Battery Research, Hydrogen, Electrolyzers, Fuel Cells, etc. He is also one of the great scientists who worked towards inventing:- SURYA NUTAN.

Surya Nutan is a stationery, rechargeable and always kitchen connected indoor cooking solution for collecting energy from Sun, converting the Sun's energy into heat through a specially designed heating element, storing thermal energy in a scientifically proven thermal battery and recovering the thermal energy for use in cooking (indoor).

Sanskriti School is proud to have 1 Surya Nutan placed at the Learning Centre.

The interaction of students with Dr. Umesh was very engaging, the students were able to gain more information about the Surya Nutan and took keen interest in knowing more about the same.
