

## ATTENTION STUDENTS

The Canadian High Commission will be celebrating World Environment Day with a free, digital screening of the powerful documentary **“Earth: Seen From The Heart (La terre vue du cœur)”**; in French with English subtitles.

Dedicated to future generations, this film encourages everyone to get involved in efforts to stop Climate Change. The film features renowned Canadian astrophysicist Hubert Reeves and fellow scholars as they explore the wonder of nature and offer us solutions to the over exploitation of natural resources and biological erosion.

The film and topic is appropriate for all students of class 8 – 12 including the students who are learning French to improve their language skills.

**The film will be available online on 5 June between 11am until 3pm (IST).** To register for the virtual screening, participant need to **“Reserve a spot”** at **<https://bit.ly/2ZNrgbL>** . Registered viewers will receive the link to watch.

We welcome comments, views and learnings shared on the page.

Look forward to see you all on the 5 June!
