

Food Stall for Junior School Open House on Saturday 3rd August by Learning Centre

Sanskriti School initiated a Vocational Training Centre, wherein Our Young Chefs from the Learning Centre put up a food stall for Junior School Open House on Saturday 3rd August, 2019. The children were actively involved and prepared freshly baked pizza's, grilled sandwiches, muffins and brownies.

It was an endeavor to empower and strengthen life skills for the young learners with special needs, with a larger goal to develop their social communication and transactional skills and facilitate their independence to become well-adjusted and productive members of the society.

It was not only an enthralling experience for our children, but was also overwhelming to witness parents participating and supporting our cause with enthusiasm.
