

INTACH FILMIT FESTIVAL REPORT 2020

Filmit is an exciting multi-cultural project that helps students make short films on their city's heritage. The project is funded by the Helen Hamlyn Trust (United Kingdom) and is a part of the Open Futures Filmit programme.

The students are trained in content development and technical knowledge through a series of workshops. This year due to the pandemic all the workshops (both technical and content workshops) were conducted online. Students from the middle school of Sanskriti school participated in these workshops and then clicked pictures and shot video-clips to make short films that were submitted online. These films on heritage and culture will be later shared with students in the United Kingdom. Filmit Project is in its twelfth year. Every year it culminates through a Filmit Festival wherein, overall best movies are screened and schools are awarded for their efforts. This year Medha Shrivastava of grade seven was awarded the award for the 'BEST DOCUMENTARY'. Her documentary was titled - My Ritual of Turmeric Drawings.

We wish to congratulate Medha and all the students for their enthusiastic participation and for their creative films.
