

Important Notice

08.01.2022

As you are aware there has been a sudden spike in the daily cases of Covid 19 infections in Delhi and the country over the past few days. Keeping this in mind and in line with the directives of the DoE issued in the letter DE.23(08)/Sch. Br./2021/749 dated December 28, 2021, Sanskriti School will conduct online classes for all the grades after the winter vacations until the situation improves.

We request parents to ensure that the students attend these classes regularly. Irregular attendance will create learning gaps that will be difficult to cover in the future. Being in class on time, responding to online discussions and attempting individual and collaborative assignments and other forms of assessment will go a long way in developing their understanding of concepts. If students do not turn on their cameras in class and do not respond during class discussions, then the teachers will have to take strict actions, including removing them from the Meet if necessary. All important notices and information will be shared through the Google Classroom.

The staff of Sanskriti School will stand by you and the students at every step of this way. Please use the Google Classroom to remain in touch with the day to activities and to communicate with us whenever required.
