

Sanskriti School
Academic Session 2020-2021
Club Details

(NOTE: For information related to the selection process, please refer to page 5 of this document)

1. ALPHA, THE MATHS CLUB

The Maths club is centered about the theoretical and practical knowledge of the subject. We believe that all problems have a logical solution, it's just our job to find them. We have a website, which is where we have paragraphs about concepts or theories we find interesting. We also have a magazine by the name of CoSine which periodically publishes great articles and questions of maths. Our main aim at the Alpha club is to make people see the fun and enjoyment that can be found in maths and open their eyes to the world of maths beyond textbooks. People who are willing to join us on this "mission" of ours are welcome here.

2. BIZZONOMY CLUB

"You don't build a business, you build people, then people build the businesses."

The Bizzonomy Club is aimed at helping the students of Sanskriti explore the business world. The Club will be hosting a highly respected inter-school event "Mind Your Business 2020" and hopes it will be a success like earlier years. The Club also tends to the needs of society and thus will be organising events to help contribute. (Last year the club took part in a Carnival for handicapped children)

The Bizzonomy Club is looking for individuals who are good at managing, getting work done, and have a knack or the desire to learn about the world of business.

3. SPOTLIGHT: THE ENGLISH DEBATE AND THEATRE CLUB

"Without debate, without criticism no administration and no country can succeed and no republic can survive."

Spotlight works towards encouraging students by honing their skills and developing on the intricacies of all aspects of debate and theatre. We at Spotlight are looking for individuals that are interested in pushing boundaries, breaking conventionalities and bringing new and creative ideas to elevate the level of theatre and debate at our school. We aim to provide learning experiences and opportunities for our members, this year, by organising more competitions and workshops. The Club organises "Stagekraft" every year, which is a much awaited and reputed inter-school event as well.

We expect our members to be active and ever ready to undertake tasks assigned to them. We are enthusiastically looking forward to welcoming those with an aptitude and interest for English Debate and Theatre. We look forward to receiving your applications. Just remember:

"Sometimes you can have the smallest role in the smallest production and still make a big impact."

4. EXPOSURE, THE PHOTOGRAPHY CLUB

Exposure, the photography club focuses on amalgamating students who have an eye for photography. The club provides a forum for young adults to showcase their photography and videos regarding various subjects. Exposure, aims at providing members with abundant opportunities to ameliorate their photographic skills and challenge themselves. The club hosts one of the most reputed inter-school photography events each year. We also plan to hold various interactive sessions with members of the club to help them learn more about the dynamics of photography. The members of the club would not only get a chance to cover various events taking place in school but will also get to participate in different inter-school competitions being held all around the city. We hope to welcome students who have a flair for photography and would be keen on devoting time to the club.

5. LEHZA, HINDI DEBATE AND THEATRE CLUB

क्लब लहज़ा -हिंदी वाद-विवाद और थिएटर क्लब

वाद-विवाद जहाँ चर्चा की औपचारिक विधि है। वहीं दूसरी ओर थिएटर या रंगमंच में नृत्य, नाटक, खेल आदि का मिश्रण होता है। जिसमें आत्मविश्वास, कलात्मक अभिव्यक्ति, टीम-भावना का एक अनूठा समन्वय देखने को मिलता है।

इस क्लब के सभी विद्यार्थियों से यह उम्मीद की जाती है कि वे क्लब लहज़ा के सभी नियमों का पालन करते हुए इस मंच या क्लब के द्वारा समाज में व्याप्त ज्वलंत समस्याओं की ओर लोगों का ध्यान आकर्षित करेंगे।

6. INTERACT CLUB

The Interact Club is a subsidiary club of Rotary International which embodies the motto "service before self". It is aimed at bringing together young people to serve the community. It also helps in honing in the leadership, time-management, and social skills of 14-18-year-olds. Till date, this club has participated in numerous social endeavours. Members of the club have taught and interacted with underprivileged children, facilitated many donation drives and put up several fundraisers as well. Along the way, they have honed their leadership skills. Today nearly 200,000 young people in more than 160 countries belong to around 20,300 clubs, making Interact a truly international phenomenon. All over the world, young people are spreading fellowship and importance of providing for the community through a wide array of Interact service activities.

7. MIIRAAS, THE HERITAGE CLUB

The true definition of Heritage eludes most. It doesn't merely include ancient monuments. It fetes a seemingly insignificant potter, who ekes out a living from his craft, as much as it celebrates the emperor of his kingdom. Miiraas is what we've inherited from our ancestors; the colossus of the king's dwellings, the emotion of the poet's sad ballad, the toil of a mason, the precision of the embroiderer and the grace of a courtesan which remained unheeded.

The Heritage Club is a platform for students who are interested in the history of our culture, to learn more about our past, and how it continues to affect all aspects of present society. We, at Heritage, consider each and every form of expression an art form whether it's verbal or on paper. We try to raise historic awareness through

paintings, drawings, poems, photographs and articles in our blogs and newsletters. We also organise talks with authors packaged with a lot of engaging discussion. We've also organised heritage walks to monuments and museums in the past.

Miiraas-The Heritage Club offers an experience you will cherish!

8. MUDRAA, THE DANCE CLUB

"To watch us dance, is to hear our hearts speak"

Mudraa, the Dance Club, emphasises on the importance that expression of art holds in one's life. The Club focuses on encouraging the members to bring about an enthusiastic approach which will help every student to thoroughly celebrate this art form. It organises its yearly event called Stagekraft, wherein performers from different schools compete with each other, following the assigned theme for the year. Mudraa also gets the opportunity to choreograph an opening or closing act for the Inter SMUN. This year, we look forward to inaugurating more such events and giving a platform for young talent to prosper. We will also be indulging in routine practices for the members of the club.

Mudraa looks forward to enlisting those students who not only have the skills and capability but also those who truly share a passion for dance, are ready to step forward, take initiative and are willing to give time for practice sessions. We look forward to making this year extremely fun and dance filled, for each one of you!

9. NEUTRINO, THE PHYSICS CLUB

"Equipped with his five senses and a bit of reason, man explores the universe around him and calls the adventure Science " -Edwin Powell Hubble

Neutrino - The Physics Club aims at expanding the scope of young minds beyond the science present in their textbooks. It supports new innovations and empowers young scientists to engage in research and debate on the various aspects of science and technology. Every year, the club organises quizzes, model-making competitions and several other activities on the Club days. It hosts the annual Cosmic 350 event (which includes the iconic Treasure Hunt), which observes the participation of eminent schools of the city. The club also hosts an annual field trip to the National Physics Laboratory, New Delhi.

During the 'Great Plague', which impacted Eurasia and people were locked inside their homes, Sir Isaac Newton discovered integral and differential calculus, formulated his famous law of gravitation and explored optics, experimenting with prisms and investigating light. The pandemic could never dampen the scientific spirit. Hence, when the world is facing a similar situation, we should keep exploring the wonders of science because the lockdown is imposed on feet, not on minds.

Neutrino looks forward to enlisting those candidates who possess the scientific temper and an innovative mind. After all, Science isn't about why, it is about why not.

Looking forward to seeing your applications! Hope you all are keeping safe.

10. OVERTONE, THE MUSIC CLUB

“A painter paints his pictures on canvas. But musicians paint their pictures on silence.”
— Leopold Stokowski

Overtone is Sanskriti’s Music Club. Since its inception, Overtone has aimed at spreading the love for Music amongst all the students of the School and beyond. It aims at improving the musical knowledge, ability and skills of Sanskriti’s various budding musicians and providing them with a platform to showcase their talent to the World.

Overtime, Overtone has evolved into one of Delhi’s most distinguished Music Clubs and has undertaken various activities and projects. In addition to organising various Club Day Activities and Intra-School Music Performances (The Carnival Performances, The Courtyard Performances etc.), Overtone has also organised various Music Workshops (The African Instruments Music Workshop, for example) and is the Club responsible for organizing and hosting Saarang (The School’s Annual Music Competition). It also represents the School in various Music Competitions, Anveshan being one example.

Overtone looks to enlist students who not only have musical skill and ability but also have a genuine passion for Music and are willing to work constantly to improve themselves, both as people and as musicians, and the Club. All members of the Club are expected to be hard-working, responsible and creative.

We hope to see your Applications!! Stay Safe and All The Best!

11. PROJECTBETA, THE TECH CLUB

ProjectBeta is Sanskriti’s Tech club. Initiated in 2013 as the BetaTesters, the guild has evolved into one of the capital’s most distinguished Tech clubs. New recruits to the organization have a chance to tap into the trove of exceptional potential held by the generations of ProjectBeta affiliates, and get the opportunity to gain a unique understanding of all areas in the field of technology. ProjectBeta deals in and has crafted remarkable events for various fields. These include designing, such as video editing, audio engineering and graphic designing – all of which are the ultimate test of one’s aesthetic; and programming and web development – both of which require a sharp mind; to interactive areas like pitching and quizzing which test a ready wit; to group discussions and debates on the topic of technology; to a trial of reflexes and strategy in gaming; to artificial intelligence and robotics; and also including cryptic hunts handcrafted by the team’s finest.

12. VIRIDIAN, THE ECO & BIO-CHEMISTRY CLUB

The Viridian club is the Eco and biochemistry club of Sanskriti, which aims at sustainable development at the school level. It urges students to “Go Green!” and think of innovative ways of bringing about a change in the environment, starting from our school itself. Also being the biochemistry club of the school, we are also planning a number of science activities and expect the members to take part in them with equal enthusiasm. Till date, Viridian club has taken various successful initiatives; the Vertical Garden project, composting pit inauguration, recycling papers into biodegradable stationery and the plantation drive being a few of them. The members of Viridian are expected to be responsible, creative and passionate about bringing out a change and

carrying out such initiatives. *Hope to see a lot of innovative and keen minds. Stay safe and GO GREEN!*

Club	Eligibility	Selection Process	Deadlines	Contact
Alpha, The Maths Club	9th, 10th, 11th, 12th	Stage 1- Google Form https://forms.gle/TjqEJcvSyoSisDjf8 Stage 2- interview via zoom	8th June, 2020 (Thursday) Interviews- 11th to 15th June	Addea Gupta (President)- 9560076481 Dhruv Jaiswal (Vice President)- 8983001998 Club email- alphaclub@sanskritschool.edu.in
