The Srijan School: Udaan event report

Students from the Learning Centre participated in the inter-school festival: Synergy 2019, organised by "The Srijan School." The festival was a four day event, our students participated in the Day 1 non-competitive event: Udaan, on 19th November. This was specially organized for children with special needs and had multiple cultural events.

We left from school wearing our air pollution masks and with high spirits geared up for the event with a total of 28 students, 5 special educators and 7 helpers from the Learning Centre.

The event was a good platform for our students to showcase and build their talents. Our students participated in the following activities:

1. **Pehnawa:** A fancy dress event representing various states of India
2. **Zaika:** A fireless cooking event where children donned their chef hats and made healthy snacks and mocktails
3. **Dhanak:** A painting event on a topic to display creativity
4. **Rachna:** Craft-making activity using re-usable waste
5. **Jhankar:** Dance performance by middle school children
6. **Music recital** where children did solo performances

Although it was a non-competitive event it was an opportunity to learn for all students making it a very educative and entertaining outing. Overall, it was a memorable event for everyone, evident from the big smiles on everyone's face.
