

Leadership Training workshop for Junior School Council Members

On 21st August 2019, Senior School Council members took a Leadership Training Workshop for Junior School appointees. Through a presentation the members of the Junior school Student Council were enthused to be leaders that lead through their own examples.

Through the interactive session the young leaders were helped to lay down the importance of Team Work and emphasis was made on the two ways to ensure coordination :

- 1) Setting Milestones
- 2) Being with each team member and taking them forward

The workshop concluded with an interesting Team Building game which taught them how to build trust in the team and to be an effective leader.
