Dear Parents

We hope you are fine and keeping safe.

The Covid-19 pandemic has been an unwelcome reminder of the importance of health in our lives and the need to prioritize it. It has been observed that students are present in school to write their tests despite being unwell. With the recent increase in the number of Covid-19 cases and on account of various other infections on the rise, it is advisable that they stay home. The aforementioned also spread rapidly and may impact those in the vicinity of the sick. It is expected that students act responsibly and isolate themselves in case they observe any symptoms, such as coughing, sneezing and fever.

We wish to reiterate the fact that unit tests are just part of the ongoing assessment process that we have planned for the entire academic session. Missing a test would not impact students' overall result as they would have many other opportunities to showcase their skills and conceptual knowledge.

We look forward to your understanding and cooperation in this regard.

Yours sincerely

Richa Sharma Agnihotri
Principal
