

Mathematics for a Better World-Poster Challenge

The International Day of Mathematics project is led by the International Mathematical Union with the support of numerous international and regional organizations from all over the world. To celebrate and explain the relevance of mathematics and to highlight its pivotal role in all our lives, the first International Day of Mathematics was held worldwide on March 14, 2020.

The theme of International Day of Mathematics 2021 is "**Mathematics for a Better World**". To mark the occasion, UNESCO is organizing a **Poster Challenge**. The competition by International Mathematical Union (IMU) for International Day of Mathematics 2021, is being promoted in South Asia in collaboration with Goethe-Institut, New Delhi and all schools are invited to participate. The best entries would be shared by the IDM for the future IDM exhibitions.

This excellent opportunity gives students a chance to express their creativity not in words but numbers, geometric shapes, formulas and other mathematical elements. Hence, also aligning itself with the pedagogy of **Art Integrated Learning** which targets cognitive, socio-emotional and psychomotor domains of the young learners.

This opportunity is open to all students. Find more information [here](#)

Don't forget to share your creations with your maths teacher!
