Dear Parents

As we enter a new year and a decade and leave behind one of the most challenging times in the history of mankind, I would like to extend my warm wishes to all Sanskritians for a safe, healthy and peaceful life ahead. 2020 was a hard taskmaster and its lessons will never be forgotten by us. The most striking aspect that we will always remember is how we all rose to meet the challenges thrown at us by strife, discontent and a microscopic virus which threatened to bring the world to its knees. But we saw that the tough actually got going and devised means to conquer the testing times with a hitherto unseen courage, tenacity and diligence.

I am proud that every Sanskritian upheld the values of the institution and contributed towards the successful functioning of the virtual school. The parents, students and teachers joined hands to ensure that education did not become a victim of the lockdown. Not a single day of instruction was missed, every school event was celebrated, workshops were organized and an all-inclusive virtual institution thrived on the bedrock of co-operation, empathy and determination.

I am grateful to the parents for their continual trust and faith in us and helping us in all our initiatives. We can enable our students to forge ahead even amidst such unforeseen difficulties with our shared vision and fruitful partnership.

I hope 2021 alleviates sufferings and peace reigns supreme once again.

Best Regards

Richa Agnihotri
Principal
Sanskriti School
