

Let today be the start of something new!

Sanskriti School organised the Nursery orientation programme on 25 March, 2019 in the school auditorium. The programme was held with much enthusiasm and zeal. The parents were given a warm welcome by the energetic nursery team. After the introduction of the team of teachers the Principal Mrs. Richa Sharma Agnihotri and Junior School Incharge Mrs. Suruchi Lal addressed the parents and shared the school's vision with them. She highlighted the importance of spending quality time with the children and emphasised how critical the formative years are for their personal growth and development. Parents were then invited for some refreshments after which they had an opportunity to interact with their ward's teachers in their respective classrooms. We look forward to a great and a productive partnership to insure a fun filled year of learning of the tiny tots.
