## Classes for Grades X and XII

In light of the rampant spread of the coronavirus and as advised by the Directorate of Education, classes for Grades X and XII, which were supposed to commence on 17 March, 2020 have been suspended. However, the school has decided to switch to the remote learning option. This may not be the preferred method of learning for many, but we hope you will understand that it will help limit exposure to Covid-19.

Please note that the classes will be conducted on a daily basis. You're requested to make sure that your ward attends all the classes and completes the tasks assigned to them with sincerity. The schedule for the classes and other important details will be shared with you shortly. Kindly check the school website for the same. Referring to the schedule would also help you ensure that your ward spends only the required amount of time using the internet.

The above-mentioned mode of learning would require a suitable device, preferably one with a large screen, internet access and a strong internet connection. Please rest assured that technical glitches, if any, would be resolved and the school would make every possible effort to ensure that the classes are conducted smoothly.

Warm Regards
