### **Field trip to an Art Gallery for exhibits by Neurodiverse persons**

On Friday ,14th October'22 a group of ten students of senior learning centre , accompanied by two educators and an attendant went to an art exhibition ; Stir gallery Chattarpur farms,New Delhi .

We left at 9:15 am by school bus and reached the destination in an hour . It was exhibiting works of Neuro diverse young adults from all over India .It had paintings ,drawings ,photographs and digital art on display.

The students visiting also have painting as a subject in NIOS and some of them are talented artists too.

The work presented was intriguing and inspiring.the students were enchanted with the artist's narration behind each work which made it more interesting and meaningful to them.

After spending an hour and half with the work ,they spent an hour in the lawns of the farm house.

It was a day spent well and quite enriching ,students were thrilled with the experience and even claimed that we thoroughly enjoyed the field trip.
