

Tinkerpreneur is the theme for ATL Tinkerfest this year. It is a 2-month long summer bootcamp which equips each student with key digital skills and frameworks to create their own online venture by the end of the bootcamp.

The bootcamp will leverage the knowledge and hands-on involvement of ATL Mentors of Change and combine it with insights from industry leaders to provide students with a thorough introduction to entrepreneurship.

Students will be mapped to Mentors of Change in collaboration with ATL in-charges and will have access to a repository of digital skills, do it yourself content, simple assignments to enable them to create their own digital product.
