

## **Visit to a Petting Farm**

The onset of winters is incomplete without an outdoor picnic with friends, and what better way to do so than visit a farm!

Over the last few days, students across nursery to grade V visited a petting farm. The children were thrilled to see and interact with a variety of farm animals -the emu, guinea pigs, ducks and cows. It was truly a novel experience. The children also loved feeding the goats and petting rabbits, besides enjoying a meal in the outdoors under the sun. Playing in the lawns and jumping on the trampoline added to the fun, and was a great way to spend a day away from their daily school routine. These wonderful outings came to an end with a joyful bus ride back to school.
