

SANSKRITI SCHOOL
Dr. S. Radhakrishnan Marg
New Delhi

Dear Parents,

The Government is observing **February 8th 2019** as National Mass De-worming Day. As per the programme, children studying in all the schools in Delhi will be administered a **chewable Albendazole tablet of 400 mg** in class. We have been assured that the medicine is safe with hardly any side effects. However, before going ahead, we would like to get your consent. In case your ward is suffering from any disease or is under any medication, kindly let us know as such children would be exempted from the programme. In case the child is absent on 8th February because of some reason, he/she would be given the medicine on **February 14th 2019**, which is to be observed as Mop-Up day.

Kindly return the filled in consent form by 6th February, 2019.
