

CAREER COUNSELLING

The Career Guidance Centre assists students from Grades IX - XII through their University applications and admissions process. The career counsellor provides a secure and supportive environment via individual and group sessions for the students to be aware of their interest, values and abilities, information about various fields of study, career opportunities and college admission process in India and Abroad. The centre empowers the students by organising plethora of workshops and providing internship (professional & community service) opportunities. The centre seeks parent support to help students with internships (need based). The counsellor encourages parents to assist their children to make informed educational and career decisions.

CAREER COUNSELING PROCESS

PSYCHOMETRIC TESTING

Psychometric testing assess one's aptitude and interest enabling the students to make informed career choice. Aptitude Test explores student's innate abilities and potential while Interest Test explores likes and preferences for a variety of activities assisting to make informed subject and career choice. It is a paid service provided by the school.
