Transition

The journey from Junior school to Middle school, from known to unknown can be stressful and unnerving for many students. The Transition Module is designed to take that fear away and boost their confidence to take on the new challenges with aplomb.

The activities thoughtfully accommodate elements of continuity and change for our students.

The Module strives to act as a bridge between the Junior school and the Middle school.

It's primary aim is to fill in for any learning gaps that could hamper all round development.
