“Children must be taught how to think, not what to think”.

-Margaret Mead

To continue the joy of learning, we have our **Orientation on 18th April (Thursday)**. It will be an occasion when the two most important pillars in the life of the child Parents and Teachers will get to know each other, it will also give you an opportunity to familiarize yourself with the curriculum of class 1.

Skating will be introduced this year, where children would be guided to learn balancing and coordination. Skates would be provided by the school. Children have to get their safety gear and helmets whenever they have their Skating period.

It is for our children's safety that we will strictly follow the dispersal rule of handing over the child only on showing the I - Card. We request you to please send the child's ID Card with the person coming to pick your ward.

To help our children keep abreast with the class and to be more responsible, it is imperative to teach them the importance of revisiting their notebooks and complete follow up work. Please go through their notebooks with them and help them complete the missed work and write corrections. We look forward to your support in helping our children keep up with their academic work. To make our learning an enriching experience, we seek your cooperation and support.

Regards

Richa Sharma Agnihotri

Principal
